Shantanu Sutar

Software Developer | Full-stack Developer
Pune, India | shantanusutar17@gmail.com |+91 9881703822 | Portfolio | Github | Linkedin | Leetcode

Education

Pimpri Chinchwad College of Engineering (PCCOE), Pune Dec 2021 - Jun 2025
B.Tech. in Information Technology Engineering ***CGPA:7.83/10***

Skills

Languages: JavaScript, Java, TypeScript, SQL
Frontend: React.js, Next.js, Redux, Tailwind CSS, Sass, Styled Components
Backend: Node.js, Express.js, REST APIs, Drizzle ORM, MongoDB, MySQL, PostgreSQL, Snowflake
Tools & Platforms: Git, Unix/Linux, Stripe, Auth0, Clerk, Informatica, Cloud Fundamentals
Problem Solving: LeetCode Knight: (Rating: 1847), solved 550+ DSA problems

Work Experience

Capgemini, Pune Sept 2025 - Present

Software Developer

- Collaborated on captivating **ReactJS** based user interfaces using HTML, CSS, and JavaScript.
- Applied **Redux** for seamless user experience and precise **state management**.
- Implemented responsive web designs for **optimal performance** across **devices and screen sizes**.
- Utilized MERN Stack for **robust** and **scalable** applications, leveraging MongoDB, Express.js, ReactJS, and NodeJS.
- Contributed to new feature development, ensuring alignment with **project requirements and deadlines**.
- Implemented end-to-end solutions in the MERN Stack, ensuring **seamless integration** and communication between frontend and backend components.
- Worked closely with **UX/UI** designers to translate wireframes and mockups into functional web interfaces.
- Integrated **RESTful APIs** for efficient communication between frontend and backend components.

Whatbytes, Bengaluru Dec 2024 - Jun 2025

Full-stack Developer Intern

- Built and maintained **frontend features** for hotel booking and admin platforms using **Next.js and Tailwind CSS**
- Designed and developed **REST APIs using Node.js and Express** to support bookings, users, and services
- Implemented **CRUD APIs** with request **validation, error handling**, and response standardization
- Worked with **SQL-based databases** to manage booking, user, and transaction data
- Integrated frontend with **backend APIs**, ensuring seamless data flow and state synchronization
- Integrated secure payment workflows including **2C2P and bank transfers**
- Implemented **location-based hotel discovery** using **map integrations**

Projects

Ai Mock Interviewer: Ranga Live | Github

- Built an **AI-powered mock interview platform** with role-based questions and personalized feedback
- Used **DrizzleORM** for interacting with the database
- Implemented secure authentication using **Clerk** and subscription payments via **Stripe**
- Integrated **Gemini API** for AI-driven interview analysis
- **Tech:** Next.js, Node.js, PostgreSQL, Drizzle ORM, Tailwind CSS

Cryptocurrency Tracker Live | Github

- Developed a real-time cryptocurrency analytics platform with **interactive charts** and market insights
- Consumed **external APIs** and handled asynchronous **data fetching**
- **Tech:** React.js, TypeScript, Tailwind CSS, Chart.js

Comfy Sloth: Furniture store Live | Github

- Built a full-featured **ecommerce** application with filtering, authentication and payments
- Integrated **Stripe** for payments and **Auth0** for secure authentication
- **Tech:** React.js, Styled Components, Context API
